

PRICES OF THE COURSE

The prices of diving courses in the center of IGC DIVING PRAHA correspond to an above-standard quality of services provided in this sport industry. The prices are always determined individually and depend on the number of students in the course, (completely individual courses for one student, for example abroad, are no exception), on the length of the course - in the case of students with a slower pace of learning (e.g. physically disabled or older persons), on requirements for the environment of the whole course or its part (e.g. in an exotic locality), on specific requirements for equipment, boarding etc. The price is also influenced by the total number of students in several courses, for example within the framework of corporate Team Buildings.

The price will be communicated to you promptly on request, in the case of more demanding requirements it will be determined only on the basis of particular specifications explained by you in person. To find out a particular price, send your demand by means of filling out the following form.

With regard to individual standard products, framework prices are mentioned for your information, which include:

- prescribed study material for the corresponding level of the course
- renting of the complete diving equipment for both closed and open water in the case of the OWD course
- an unlimited number of dives in the pool in the framework of the course including filling of pressure bottles
- prescribed number of dives for individual levels of training in open water in the Czech Republic including filling of

IGC DIVING PRAHA
